

# Grants for energy assessments and energy efficiency

Energy assessment and energy efficiency grants are available in Victoria, NSW, Tasmania and Queensland. Energy efficiency subsidies and access to asset finance is also available through the federal Clean Energy Finance Corporation.

## Victoria

**Agriculture Victoria** has \$30 million is available for:

- › **assessments** – to provide on-farm energy assessments to assist farmers identify where they may reduce energy consumption
- › **grants** – to support farmers invest in energy efficiencies or own-generation capacity
- › **demonstrations** – to show energy efficiency measures on-farm
- › **skills and education** – to improve skills and knowledge of energy efficiency opportunities and technology
- › **research** – to facilitate partnerships to commercialise research for the farming sector.

For more information visit [agriculture.vic.gov.au/agriculture/farm-management/agriculture-energy-investment-plan](http://agriculture.vic.gov.au/agriculture/farm-management/agriculture-energy-investment-plan).

## Sustainability Victoria's Boosting Productivity

has funding for energy assessments:

Grants up to \$2,000 and \$15,000 (covering 50 per cent of the cost) are available to help businesses carry out an energy assessment, and identify and put in place energy improvements. There is also a \$3,000 implementation bonus.

Grants are available to businesses with less than 200 full time employees, spending more than \$20,000 a year on energy bills.

More details can be found at [sustainability.vic.gov.au/energyassessment-grants](http://sustainability.vic.gov.au/energyassessment-grants) via the application page.

## NSW

NSW Government Office of Environment and Heritage has excellent resources available from their website, including a large range of fact sheets and information about where, and how, to access funding support.

## Finance Programs

The Clean Energy Finance Corp is an Australian Government statutory authority formed to 'facilitate increased flows of finance into the clean energy sector'. It runs a range of programs targeting clean energy and energy efficiency improvements for small businesses, manufacturers and the agricultural sector, as well as small-scale commercial property. It also partners with external organisations to provide access to funding via co-financing.

### Programs include:

#### ANZ Energy Efficient Asset Finance program
