

Latest developments in Profitable Nitrogen Fertilizer use from local trials

DATE: Friday 23rd Feb 2018

TIME: 10am – 2pm

**Graeme and Daniel Croft
Killeens Road, Mepunga West**

**RSVP to WestVic Dairy by 20th
February on 5557 1000 or email
amanda@westvicdairy.com.au**

Learn about local research trials by the University of Melbourne into the efficiency of nitrogen fertiliser. The trials on Graeme and Danny Croft's farm in Mepunga aim to develop improved guidelines and recommendations to help you save money on fertilisers. The day will also include discussion about the work surrounding the use of drone and satellite technology.

Learn how this research will aid in the development of nitrogen decision making tools to benefit your farm's profitability.

Topics:

- Save money on Nitrogen Fertilizer
- Reduce Nitrogen losses from your system
- Maximise pasture utilisation
- Understand soil nitrogen mineralisation rates and fertilizer requirements over the year.

Presenters:

- Professor Richard Eckard
University of Melbourne
- Dr Helen Suter
University of Melbourne
- Professor Dongryeol Ryu
University of Melbourne
- Graeme Ward
University of Melbourne.
- Martin Harmer
PGG Wrightson Seeds

This project is supported by funding from the Australian Government Department of Agriculture and Water Resources as part of its Rural R&D for Profit program, The University of Melbourne and Dairy Australia.
